

How to license Node Locked Version macOS

This documentation explains the licensing process for **Jokyo HAP Ae Encoder Node Locked Version**
If you purchase Jokyo HAP Ae Encoder Dongle Version, use the How To License Dongle Version Windows Instead.

Node Locked version installer can be download in the Jokyo HAP Ae Encoder web page :
<https://jokyoencoder.com/jokyo-hap-aeencoder-hap-encoder-plugin-for-adobe-after-effects/#download>

 JokyoHapAeEncoder_Installer_NodeLocked_2.1.0.exe

Run the installer.

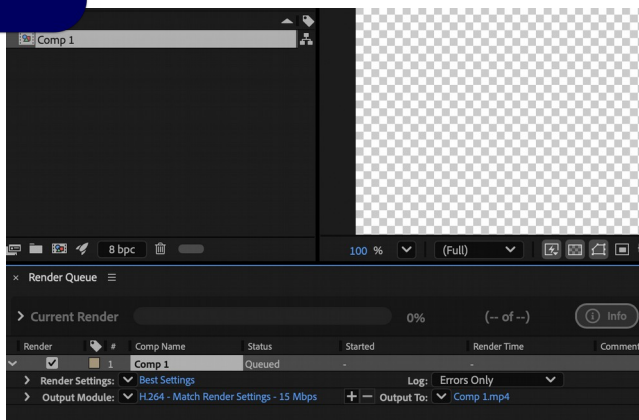

At the "Install licence" file step, click on "continue".
The plug-in will be installed as a trial version
(limited to an output of 250 frames watermarked).

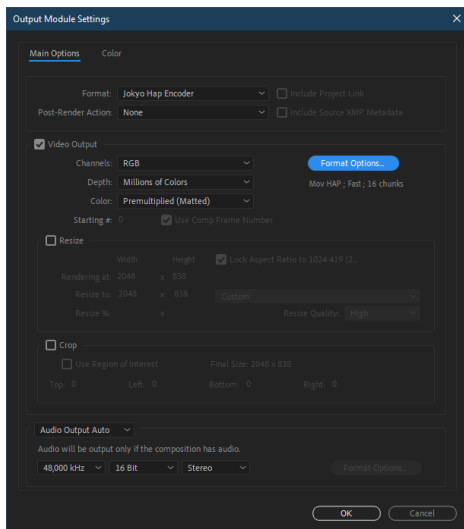

Finish the installation and close the installer.

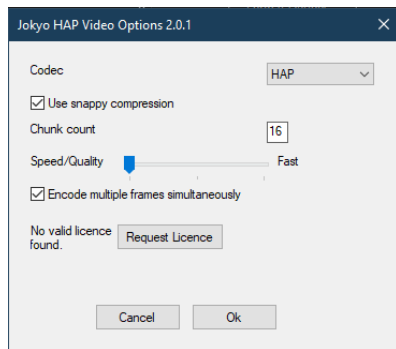

Open Adobe After Effects.
Create a new "composition" and add it to the "renderqueue".
And clic to edit the Output Module parameters

Select Jokyo Hap Encoder and click on Format options.

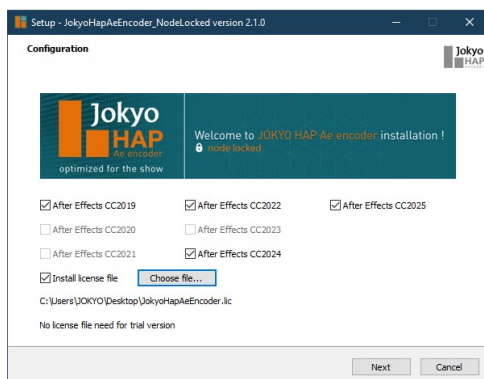

Click on **Request Licence**, to generate the request file for your computer
A request file named **JokyoHapAeEncoder.ask** will be created on your desktop.

E-mail this file to licence@jokyoencoder.com with your purchase order number

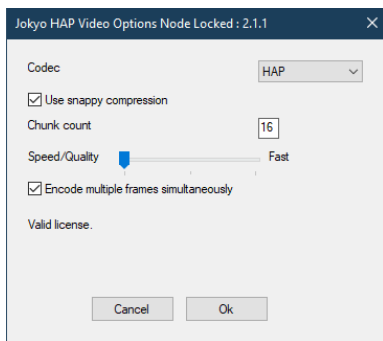

It can take up to 2 working days for the license to be created
(license generation is a manual process on our side (we are most of the time
In GMT +2 timezone)).

You will then receive an email containing a file named **JokyoHapAeEncoder.lic**

Note : if you purchase a bundle. You only need to create one .ask file
(no need to create one .ask file for each product of the bundle)

Run again the .exe installer.
At the "Install Licence file" step, select the file **JokyoHapAeEncoder.lic**
and continue the installation process.

You can check on the status of the license by going to the dialog box
of the Formats options of the **Jokyo HAP Ae Encoder** in After effects.
